MOTIF

Janaki Asthan

Popularly known as Janaki Asthan, the temple is of great religious importance where hundreds of Hindu devotees come everyday and perform puja. It is said that Raja Janak, the legendry King "Videha" excavated a tank at this place where Sita appeared to life from the earth. The legend is that a Hindu ascetic, named Birbal Das, came to know about this site by divine inspiration and commenced the worship of Janaki or Sita here about 500 years ago. Vivah Panchami is observed to celebrate the marriage of Rama and Sita every year on the fifth day of Shukla Paksha in the month of Agrahayan in the temple when devotees from far flung areas come to worship. The place is 1.5 kms. away from Sitamarhi railway station and Bus stand.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Krishnamoorthy Senthil Kumar, Director of Census Operation Bihar. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

New Delhi.
Dated: 16-06-2014

(C.Chandramouli)
Registrar General &
Census Commissioner, India

Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and these are printed in every Census because of their wide ranging utility. Census after Census much innovations/modifications have taken place in the District Census Handbooks in terms of coverage and content of population data. This is the most valuable district level publication brought out by the Census Organization on behalf of the State Government. Its inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the respective district. This publication has, thus, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era of planned development.

The District Census Handbook project is joint venture of the State Government and the Census organization, and is brought out in two parts, viz. (i) part A – the village and town directory and (ii) part B – containing village and town wise Primary Census Abstracts pertaining to total population. It also contains the District Primary Census Abstracts for the total population and the Scheduled Caste and the Scheduled Tribe Population by rural-urban break-up. Keeping in view the pace of development and demand by the data users, the scope of Village Directory Data has been further widened up by incorporating more data parameters on Educational, Medical, Banking Communication facilities. Town Directory data is presented in seven statements covering Status and Growth History of towns, Physical Aspects and Location of Towns, Civic and other Amenities, Medical Facilities, Educational, Recreational & Cultural Facilities, Industry & Banking and Civic & other amenities in Slums respectively.

This volume of the District Census Handbook (DCHB) is concerned with Part-B of the Publication dealing with Primary Census Abstract of the district. It is worth mentioning that the District Census Handbooks of the Census of India, 2011 are being made available in electronic format in addition to printed volumes keeping in view the demands of the data users.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes which have taken place in the districts during the decade.

I am grateful to the State Government agencies for their co-operation in collection of such a huge mass of data. I would like to make a special mention of the warm and whole hearted co-operation which was throughout extended

by the District Magistrates, the Sub-divisional Officers, the District Census Officers and the Block Development Officers.

In my office Shri Mritunjay Kumar, Deputy Director, Mr Manjul Mayank Pandey and Mr Ramesh Prasad, Assistant Directors supervised the project at different stages. District and C. D. Block Maps were prepared in Map Section under the overall supervision of Shri Dharendra Kumar, Assistant Director and Sri Debatosh Biswas, Senior Geographer (Map). I am thankful to all of them. The name of other officers and officials who were associated with this project is shown under Acknowledgement.

I am personally indebted to Dr C Chandramauli, Registrar General and Census Commissioner, India under whose guidance it has been rare privilege to strive for results. I am also grateful to Sri Senthil Kumar, ex Director of Census Operations, Bihar, Patna for their sustained support and unfailing guidance throughout our endeavours. I am equally indebted to Dr. Pratibha Kumari, Assistant Registrar General of Social Studies Division and Dr. A.P. Singh, Deputy Registrar General (Map) for spontaneous help and encouragement at different stages of the work of this project. I am also thankful to Sri M.S. Thapa, Additional Director, Mr Anil Kumar Arora, Joint Director and Mr Ramesh Kumar, Deputy Director of DP Division of Office of the Registrar General, India, New Delhi who supplied software, finalised data and tables.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, news papers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.:(i)-Status and Growth History of towns,(ii)-Physical Aspects and Location of Towns,(iii)-Civic and other Amenities,(iv)-Medical Facilities,(v)-Educational, Recreational & Cultural Facilities,(vi)-Industry & Banking, and (vii)-Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the district

The district of Sitamarhi, which till the 1971 Census was a part of Muzaffarpur district, was created and formally inaugurated on the 11th of December, 1972. The district is situated in the northern part of Tirhut Division and lies on the extreme north region of the state of Bihar. It is surrounded on the north by Nepal, on the east by the district of Darbhanga, on the west by the districts of Sheohar and Purba Champaran and on the south by the districts of Muzaffarpur and Darbhanga. It is spread breadth wise from north to south covering about 48 kms.

Before the reorganisation of the district came into effect, the old district of Muzaffarpur was divided into three subdivisions with their headquarters at Muzaffarpur, Hajipur and Sitamarhi. The subdivisional headquarters of Sitamarhi was located at Sitamarhi town until 1935. The town of Sitamarhi faced one of the worst natural calamities in the month of January in the year 1934 when it was rocked by the earthquake. The earthquake, which lasted for only one minute and a few seconds, had disastrous effects. Buildings were reduced to debries and fissures and depressions occurred all around. The roads of Sitamarhi were damaged extensively and the town was completely cut off for some time. Rail communication was dislocated and at places railway lines were twisted and they lost the original alignment. The topography changed considerably and the town of Sitamarhi was so badly damaged that at one time it was feared that it would have to be abandoned as unsafe for rebuilding purposes. As a sequel to this havoc and apprehension, the sub-divisional headquarters and courts were shifted to Dumra in 1936, five kilometres away from Sitamarhi town. Since then the subdivisional headquarters has continued at Dumra and even after the up gradation of the subdivision to the status of a district the headquarters of the subdivision as well as the district are located at Dumra.

Sitamarhi is a sacred place in Hindu mythology. Tradition has it that Sita sprang to life out of an earthen pot while Raja Janak was driving his plough somewhere near Sitamarhi town. The tank, called the Janaki-kund, is still pointed out as the place out of which she is said to have emerged. But Punaura, a village about five kilometres to south-west of Sitamarhi town, also stakes its claim as

the birth place of Sita. The town, however, contains no relics of any archaeological interest. The temple of Janaki, i.e., Sita the daughter of Raja Janak, is apparently modern and not more than 100 years old. It contains three stone figures with eyes of mother of pearl which represent Rama, Sita and Lakshman. The legend associated with the temple mentions; however, that it occupies an old site. It is said that Raja Janak excavated a tank at the place where Sita sprang to life and after her marriage set up the figures of Rama, Sita and Lakshman to mark the site. This tank is known as the Janaki-kund just to the south of the Janaki Mandir. In course of time, the land lapsed into a jungle until about 500 years ago, when a Hindu ascetic, named Birbal Das, came to know the site by divine inspiration where Sita was born. He came down from Ayodhya and cleared the jungle and found the images set up by Raja Janak. He built a temple over them and commenced the worship of Janaki or Sita. The income of the temple is mainly derived from the offerings by the pilgrims. In the same compound there are three other temples of Hanuman, Mahadeo and Ganesh which are quite modern. To the south of the main temple stands a mausoleum erected over the ashes of the first three Mahanth, Birbal Das and his two successors. The entire campus of these temples is popularly known as Janaki Asthan and is of great religious importance where hundreds of Hindu devotees come every day and perform puja. Vivah Panchmi and Ram Navami, commemorating the marriage of Sita to Rama, and the birth of Ram respectively are celebrated at Sitamarhi with great éclat. Vivah Panchami is observed to celebrate the marriage anniversary of Rama and Sita every year on the fifth day of Shukla Paksha in the month of Agrahayan. On this occasion people, mainly ladies from far and wide throng at Janakpur and Sitamarhi. A cattle fair is also organised on this occasion. Ram Navami is observed to celebrate the birth anniversary of Rama considered to be an incarnation of Lord Vishnu. It is observed every year on the 9th day of Shukla Paksha in the month of Chaitra. On these two occasions the congregation is regaled with stories about the adventures of Rama who had conquered Lanka and killed the demon king Ravana. Religious dramas and dances depicting episodes from Rama's life, known as Ramalila, are organised.

Administrative Setup

Sitamarhi district forms the part of the North Bihar Plain and is located on the Indo-Nepal border. It is surrounded on the north by Nepal, on the east by the district of Darbhanga, on the west by the districts of Sheohar and Purba Champaran and on the south by the districts of Muzaffarpur and Darbhanga. There are altogether seventeen Community Development Blocks in the district namely Bargania, Suppi, Majorganj, Sonbarsa, Parihar, Bathnaha, Riga, Runisaidpur, Dumra, Sursand, Bajpatti, Charaut, Pupri, Nanpur, Bokhra, Parsauni and Belsand. The district consists of three sub-divisions namely, Sitamarhi Sadar, Pupri and Belsand. Bairgania(Nagar Panchayat), Belsand(Nagar Panchayat), Sitamarhi (Nagar Parishad), Dumra(Nagar Panchayat) and Janakpur Road(Nagar Parishad) are the four statutory and 03 census towns in the district. Total number of villages in the district is 834. Sitamarhi (Nagar Parishad) is the headquarter of the district.

In the year 1994 the erstwhile Sitamarhi district was bifurcated into two districts, the new district being Sheohar. Areas falling under Sheohar, Piprahi and Tariyani Chowk Community Development Blocks of Sitamarhi district were transferred to the newly created district of Sheohar.

District Magistrate is posted in the district who is the top most official of Revenue and civil administration. He belongs to I.A.S. cadre. District Magistrate conducts development and welfare works in the district. ADM and other officers are posted in order to help D.M. in the administration. The district has three subdivisions headed by subdivisional officers either from I.A.S. or B.P.S.C. cadre. S.D.O. is under direct authority of D.M. There are seventeen C.D. Blocks in the district where B.D.Os. are posted who undertake development and welfare projects.

Judicial Administration:

The Judges and Munshif magistrates are posted at district and sub-divisions who administer and deliver justice of different kind. The district judiciary is part of Indian judicial system as envisaged in Indian Constitution and independent of district administration.

Police Administration:

The Superintendent of Police, Sitamarhi is the head of the district police administration who is generally from the Indian Police Service. In the subdivisions of the district, the Deputy Superintendents of Police are posted who keep control on police administration and belongs to Bihar Police Service.

District Highlights 2011 Census

- Sitamarhi ranks 11th in terms of population (34,23,574) and 22nd in terms of area (2,294 sq.km.) in the state of Bihar.
- In terms of population per sq.km. Sitamarhi is the 9th densely populated district in the state with 1,492 persons per sq.km as against the state's 1,106.
- Sitamarhi ranks 31st in terms of sex-ratio (899) against the state's 918.
- Sitamarhi ranks 26th in terms of child sex-ratio (930) against state's 935.
- There are 26 uninhabited villages (out of 834 total villages) in the district of Sitamarhi.
- Cheraut (under Charaut C.D. Block) is the most populated village (35,976) and Arazi Nankar (under Charaut C.D. Block) and Chak Bhoj (under Bokhara C.D. Block) are the least populated villages (02) in the district.
- C.D. Block Runisaidpur has the highest number of villages (102) in the district and C.D. Block Charaut has the lowest number of villages (17).
- Cheraut (under Charaut C.D. Block) has the largest area (2,435 hectares) and Bharwar Nankar Rakbe (under Belsand C.D. Block) has the smallest area (2 hectares) among the villages in the district.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if

available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFOA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
